About Our Agency

The **Chinese-American Planning Council, Inc. (CPC)** was founded in 1965 and has become one of the largest providers of social services for Asian Americans in the United States.

Early Childhood Learning & Wellness Services (ECLW) is one of the programs offered by CPC's Community Services. ECLW is part of the New York City Child Care Resource and Referral Consortium (NYC CCR&R Consortium), composed of four culturally diverse child care resource and referral agencies in New York City, and funded by the New York State Office of Children and Family Services (OCFS). Our service goals are to serve the child care needs of families by providing information and referrals, as well as increasing the supply and improving the quality of child care services through technical assistance and training.

Our staff is multilingual in English, Chinese, and Spanish. We provide parents with free information on quality and affordable child care and assist them in navigating New York City's complex child care delivery system. In addition, ECLW offers Family Day Care orientations, training, technical assistance, and grants to potential and existing child care programs/providers, in order to increase the supply and improve the quality of child care services in New York City.

NYS Office of Children and Family Services' Regulations on Provider Training

All child care staff/employees/caregivers and volunteers with potential for regular and substantial contact with children are required by the New York State Office of Children and Family Services (OCFS) to complete **a total of thirty (30) hours of training every two (2) years**. Such training must address the following topics:

1. Principles of childhood development, focusing on the developmental stages of the age groups for which the program provides care
2. Nutrition and health needs of infants and children
3. Child day care program development
4. Safety and security procedures
5. Business record maintenance and management
6. Child abuse and maltreatment identification and prevention
7. Statutes and regulations pertaining to child day care
8. Statutes and regulations pertaining to child abuse and maltreatment
9. Education and information on the identification, diagnosis, and prevention of the shaken baby syndrome
10. Adverse childhood experiences, focused on understanding trauma and on nurturing resiliency

NYS Core Body of Knowledge (Core)

The Core Body of Knowledge, New York State's Core Competencies for Early Childhood Educators, was written for professionals who work directly with young children and was published by NYC Early Childhood Professional Development Institute.

1. Child Growth and Development
2. Family and Community Relations
3. Observation and Assessment

4. Environment and Curriculum
5. Health, Safety, and Nutrition
6. Professionalism and Leadership
7. Administration and Management

Child Development Association Competency Standards and Functional Areas (CDA)

The CDA Competency Standards are the national standards used to evaluate a caregiver's performance with children and families during the CDA assessment process. The Competency Standards are divided into six Competency Goals, which are statements of a general-purpose or goal for caregiver behavior. The following six Competency Goals apply to all child care settings:

1. To establish and maintain a safe, healthy learning environment;
2. To advance physical and intellectual competence;
3. To support social and emotional development and to provide positive guidance;
4. To establish positive and productive relationships with families;
5. To ensure a well-run, purposeful program responsive to participant needs;
6. To maintain a commitment to professionalism.

Need Assistance or Have Questions Subsequent to this Training? Contact us!

After the training is over, you may find that you have additional questions or you might experience challenges in implementing the strategies discussed during the training. ECLW staff is available to provide follow-up support in these instances. We encourage you to contact us at 212-941-1828 (English) or 212-792-4597 (Chinese) and ask to speak with a provider team member. 30 Hour Cohort Courses

These sessions are designed to help fulfill the 30-hour requirement for initial licensing and renewal. All topics are taught by NYS verified trainers or NYS certified early childhood educators.

Thematic Unit and Lesson Planning: Enhancing Learning Through Arts

Children learn greatest when they are interested in what they are learning. A thematic unit is a cohesion of lessons and scaffolding methods in which various areas of curriculum are connected together and integrated within a theme. It organizes learning by creating connections, which is how our little ones learn best. In this training, Providers will learn the strategies for designing and implementing an interesting thematic unit to keep children engaged, and increase their interest and developmental growth. Providers will also learn to develop an integrated unit plan for teaching a thematic unit that includes hands-on art activities.

This training meets the following OCFS training topic area(s):

- (1) Principles of childhood development, focusing on the developmental stages of the age groups for which the program provides care
- (3) Child day care program development

Business Curriculum

This training session is aimed for licensed family day care providers to learn on how to run their day care more efficient as a business. During the training, we will be touch on topics like business structure, financial management, risk management and recordkeeping. Participants will learn some money saving method through the tax policy they do benefit from as a family day care provider. Many different ways on how to minimize legal troubles from government agencies and patients.

For providers who are having enrollment difficulties, low cost or free marketing methods will be presented to them.

This training meets the following OCFS training topic area(s):

- (5) Business record maintenance and management;
- (6) Child abuse and maltreatment identification and prevention;

Indoor/Outdoor Play and Procedure

In this training, participants will explore and create different age appropriate activities for indoor and outdoor play with children. Participants will learn how to conduct the activities with proper supervision and ensure the safety of children at all times. By creating developmentally appropriate activities, Providers will be better able to assist children in developing the skills they need to learn in order to grow.

This training meets the following OCFS training topic area(s):

- (1) Principles of childhood development, focusing on the developmental stages of the age groups for which the program provides care
- (3) Child day care program development
- (4) Safety and security procedures
- (7) Statutes and regulations pertaining to child day care

Nutrition and Menu Planning

Children need nutritious food to help their bodies and minds develop and grow. It is critical that child care providers serve healthy, nutritious food, because children consume such a large percentage of their daily calories while at child care programs. In this training, Providers will learn how to create menus for their program that contain a balanced diet. They will also learn about food requirements depending on the age of the child and what the regulations are about providing foods that are adequate in amount and variety to meet the needs of each child.

This training meets the following OCFS training topic area(s):

- (2) Nutrition and Health

PITC: Responsive Care Giving and Interaction in Child Care Program

This training provides an overview of the basic concepts of early social-emotional growth and socialization and their applications to the group care context. It addresses the importance of responsive caregiving, the individualization of care through understanding of infant temperament, the critical role of family and culture in early identity development, and stages of emotional development.

This training meets the following OCFS training topic area(s):

- (1) Principles of childhood development, focusing on the developmental stages of the age groups for which the program provides care
- (3) Child day care program development

Child Abuse & Maltreatment

This training focuses on definitions of abuse and maltreatment and how to identify physical and behavioral indicators associated with abuse and maltreatment. Participants practice evaluating case scenarios to determine reasonable cause to suspect if abuse or maltreatment has or is occurring and learn how to complete reporting requirements to fulfill mandatory requirements.

This training meets the following OCFS training topic area(s):

- (4) Safety and security procedures
- (6) Child abuse and maltreatment identification and prevention
- (7) Statutes and regulations pertaining to child day care
- (8) Statutes and regulations pertaining to child abuse and maltreatment
- (9) Education and information on the identification, diagnosis and prevention of shaken baby syndrome

Adverse Childhood Experiences

Overview of Adverse Childhood Experiences (ACE's) and the demographic data provided to inform audience of the long-term effects of trauma in young children, including physiological and neurobiological impact. Presentation will provide research on trauma and its impact the behavioral responses in young children. This presentation will include activities, small group discussions, and reflection to increase audience's understanding of ACEs and how it impacts young children.

This training meets the following OCFS training topic area(s):

- (10) Adverse childhood experiences, focused on understanding trauma and on nurturing resiliency

Target Participants: Licensed Family Child Care Providers, Assistants & Legally-exempt child care providers.
